## INTRODUCTION

BIC stands for Big Investment Corporation. On our website you will be able to get and give loans. This means that in case your company needs a loan, that you will be able to put it up for auction and other investors can bid on it. They can provide you with a portion of the funds or the whole loan. The other side of our platform is that instead of being the one who asks for a loan, you'll be able to act as the investor, the one that provides the loan. We welcome you all to BIC!

## BIG INVESTMENT CORPORATION

BIC is blockchain based lending marketplace for business owners. We connect borrowers with investors, this all happened on our platform.

Throughout innovation in the cryptocurrency world and payment providers, we have made a total package which we use to process the payments. This means that every transaction can be followed on our own BIC block explorer, thank to this we have created a product that is totally independent of banks.

On our platform you will be able to get and give out loans. In case you are an investor, you will be provided with the certainties that the borrower has provided to us. This way you will be able to make a clear judgement and place your investment.

## OUR MISSION

Our mission is to create a bridge between borrowers and investors. To make this establishment and partnership as smooth as possible and to disperse all the barriers that they are currently facing. To be able to do this our platform will act as a mediator and our coin with its blockchain as the foundation of it, maintaining and innovating is what we believe the key is to create a successful business.

## BIC BUSINESS MODEL

BIC will act like a key mediator between the borrower and the investor. We will establish fundamental certainties that need to be provided by both parties in the process of establishing a good relationship between them. Our own cryptocurrency will be placed as the payment method in all these transactions. Due to the innovations like the block explorer we will be able to track all the payments that are made. These kinds of innovations are an essential in keeping a healthy and transparent business.

## START-UP PLAN

Currently we are launching the platform for BIC, after this we will focus on the marketing.

To be able to have a good product we know that the opinions of users are the most important factor, therefore we will create a special suggestion category, here you can place your suggestion and we will see if it is possible to implement it, if so you will get a reply and we will talk to you about the possibilities. Other aspects like exchange and monitoring listings will be done according to our roadmap down below, if something changes, the community will get their vote on it. After all, without a great community, you can't have a great product!
